

Data Security

Prosperity Home Mortgage, LLC recognizes that our customers entrust us with some of their most personal and private information and we take very seriously our responsibility to ensure that any data we receive and exchange with our customers is highly protected. We take the following steps to protect data: 1) Use of encrypted email; 2) Installation of encrypted hard drives in all company computers; 3) Use of a secure network; 4) Ensuring that all our employees, contractors, affiliates, vendors and other third party service providers comply with federal, state, and local laws and regulations designed to protect our customers' information. The protection of your data is our top priority.
